Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Election/Restrictions

The following restriction requirement is made in view of applicant's addition of new claims 43-53 which add new inventions within that which was elected. Applicant election of Group VII is noted. The requirement made below is consistent with that set forth for the compound claims of record which have been canceled (see restriction requirement mailed 1/06/04). The addition of the new method claims 43-53 now creates the need for further restriction within the elected group VII. The instant invention is linked to other inventions through claim 16. Applicant has now added claims that depend from claim 16 and create other linked inventions. Applicant must elect a specific target as recited in claims 44 and 49. Claims 43-53 are generic to linking claim 16 and in turn are generic to group VII, for example. The different connexin targets represent different inventions since the search of antisense inhibition of one connexin would not necessarily locate art against the inhibition of another. Furthermore the use of an antisense to inhibit one specific connexin nucleic acid would not necessarily inhibit another different connexin. It is noted that if applicant added more new claims that add, for example, specific antisense sequences, they will be subject to restriction consistent with that of the previous restriction mailed 1/06/04 (see page 3-4 of the restriction requirement mailed 1/06/04). If applicant does add new claims with specific sequences applicant should make an election, be it traversed or not. The addition of such claims without an election may result in a notice of non-responsive amendment and may negatively affect applicant's patent term. The restriction requirement set forth above is

Art Unit: 1635

clearly consistent with the restriction requirement set forth 1/06/04 and the requirements made above would clearly have been made in that restriction if newly added claims 43-53 had been present at that time. Restriction is required under 35 U.S.C. 121 and 372. Claim 16 links the different inventions within claim 44 and within claim 50 (see the restriction of 1/06/04 page 5).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sean R McGarry whose telephone number is (571) 272-0761. The examiner can normally be reached on M-Th (6:00-4:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John LeGuyader can be reached on (571) 272-0760. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
